

VA MOTTO IS: **“WE MURDER ‘EM AND HOW!!!”**

DEBUT OF VA HOSPITAL PROTOTYPE TITLED THE “***VET DEATH-STAR***” new home for the Clarksburg West Virginia, VA hospital. Nationally known in 2021 for an estimated 7-21 veteran murders by hospital staff and still going strong. 24 veterans died by suicide on VA properties in an 18 month span between 2017-2019 after we drugged and psychiatrically terrorized troubled patients in MHC ‘therapeutic’ settings then let him go to finish the self-murder. Is that not clever of us not to dirty our hands! One self-immolated on a VA hospital front steps and another one at a sister campus. Ranking USA with ***Communist*** Russia and China where self-immolation is common practice protesting tyranny on Red and Tiananmen Squares, respectively. Then we cried alligator tears all the way to the bank depositing all those unspent millions of taxpayer funds for suicide prevention budgets we instead so selfishly use for VA perks and bonuses. 100 vets die daily from suicide – *how is that for VA job security!* Only VA and America can stoop so low in the cesspool profiting from veteran suffering and suicide epidemic. VA so generously gives veterans another chance to suffer and die for this ungrateful country. Nobody murders ‘em like VA murders ‘em...

*VA Making Amerika great again.
Do we kill ‘em and how!*
